Schreiner University provides this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics. Schreiner is a private University of higher education located in Kerrville, Texas. In the fall of 2013, Schreiner enrolled approximately 1136 full-time students with about 704 of them living on-campus. Our campus is located in a small community of about 20,000 therefore our students do not face a large exposure to crime. Like any other community, we experience a certain amount of criminal activity.

The Student Right to Know and Campus Security Act, in Section 103, Title I requires institutions to provide information about the completion or graduation rate of degree seeking, full time undergraduate students entering the institution. In place of completion or graduation rates, institutions may elect to publish the percentage of students in each entering class who re-enroll each successive year until completion or graduation. These are called persistence rates. Schreiner University has elected to provide both forms of information.

Schreiner University Crime Statistics
The Clery Act of 1998 requires colleges and universities to distribute to all current students, employees and to requesting applicants for enrollment as well as employment, descriptions of policies related to campus security, and statistics concerning specific types of crimes.

The 2012 figures were reported by the Kerrville Police Department, Security Office and the office of Residence Life.
